

## **Spring River Mental Health & Wellness Statement on Data Security Incident**

January 24, 2024: Spring River Mental Health & Wellness, Inc. (SRMHW) is committed to safeguarding the privacy and security of its clients' information. On November 26, 2024, we discovered technical issues in our network. Upon discovery, we promptly launched an investigation and engaged cybersecurity experts through counsel to investigate the incident and determine its scope. We also notified law enforcement and the Office for Civil Rights at the Department of Health and Human Services as part of our response.

As part of the ongoing investigation, it was determined that certain data may have been accessed or acquired without authorization. We are conducting a thorough investigation to determine what information may have been involved. Individuals whose protected health information may have been involved will be contacted directly with information and resources. Any updates will be posted on this page.

We thank you for your patience, and we deeply regret any concern this incident may cause.
